## Forever Memories

Ella Modicamore is a senior from Williamsville North High School and is enrolled in the Digital Media program at Erie 1 BOCES Career and Technical Education Center at Calspan Business Park.

"I enrolled in BOCES because I have loved digital art and animating ever since I was a little kid," said Ella. "I want to do animation and video game design as my career. I took this class to expand my knowledge on how to make videos, animate and so much more."

In the fall of 2024, following graduation, Ella plans to attend college.

"I plan to attend Villa Maria College and study game design and graphic design. I'd also like to attend Buffalo State University to obtain a Master's degree in teaching," she said.

"This program has helped me reach my goals by showing me how to use industry-standard software, such as Adobe Premiere Pro, Adobe Photoshop and so much more. It has also helped me learn how to adjust to programs I don't usually use for my digital art," said Ella. "This program has not only helped me with my knowledge in my field, but my social knowledge. I have gained many strong friendships with the other students and they have helped me when I needed them. I love this program and I will never forget the time I spent here."

As part of public education, Erie 1 BOCES offers a variety of career and technical programs during the regular school day to high school students in Erie County. High school students interested in learning more about how they can participate in various programs, such as digital media, web and gaming technologies, building trades, electronics or criminal justice, should visit [www.e1b.org/cte](http://www.e1b.org/cte) or speak with their high school counselor.
